OpenScape 4000 - How to connect OpenScape UC - Training for Service (OS4PRUCSDS)

Author: Carsten Erley

Phone: +49 89 7007-20819

Issue: SNR / 019e

Date: 08.09.17

Target Group: Service

Brief Description: This web based training is designed for service technicians of the OpenScape 4000, who are supposed to set them up for an OpenScape UC application. It covers all necessary interfaces of the OS4K as well as the required configuration in order to set up and commission these in the OpenScape 4000 in a later UC Basic or UC Advanced training.
This web based training is the prerequisite for the UC training OSABASISCS as well as OSAADVSSCS, since this content is no longer covered in the two training courses.

Prerequisites: Participation in the course OS4BAS1SCS as well as OS4ADV1SCS.
Participation in the course OS4NETWSCS is recommended.

Aims: The participant

- knows the required settings of the CSTA interface of the OS4K to connect them to the UC server
- knows the necessary settings of the XIE / API interface of the OS4K to enable a data exchange with UC.
- knows the required configuration of the SNMP parameters of the OS4K for UC.
- knows the configuration required to set up a Load Balancer behaviour when using multiple UC media servers.

Content:

- Overview
- Connection Variants
- SNMP
 - Configure the SNMP settings
- Firewall
 - Configure the OpenScape 4000 Assistant
- CSTA / ACL
 - Overview and configuration
- Node Synchronization
 - Synchronize UC and OpenScape 4000
- SIP-Native Trunk
 - How to connect the UC media server
- Load Balancer
 - Configuration for multiple UC media servers

Duration: 30 minutes

Delivery: Web Based Training (WBT)

Course price: Global list price € 100,00
LCP 2
(Your individual discount will be calculated at the end of the booking process.)

Course in Web: [OpenScape 4000 - How to connect OpenScape UC - Training for Service \(OS4PRUCSDS\)](#)

Enrolment: Please enrol via your personal MyTraining Account on the Homepage of the Unify Academy.
This enrolment is free of charge.
