

Atos Unify Academy

Atos Unify OpenScape Contact Center Basic Service Course

Course code OCCENBASCS

Target Group Partner technicians installing and maintaining OpenScape Contact Center, Unify Go technicians
Customer that maintain OpenScape Contact Center themselves

Course language	Delivery type	Duration
English	Classroom	5 days

Course description

In this course we describe the concepts and the functionalities of Atos Unify OpenScape Contact Center, install and implement the Atos Unify OpenScape Contact Center Main server. We establish the connectivity with the Contact Media Service (CMS) as well as Atos Unify OpenScape Contact Center Analytics and learn the basic configuration of Atos Unify OpenScape Contact Center for voice and callback media theoretically and practically. This includes for example configuring simple Voice Routing Strategies and Queue Processing (without accessing external databases or custom functions). Furthermore, the participant learns how to maintain, backup, patch and troubleshoot Atos Unify OpenScape Contact Center for Voice media in a simple Windows environment. The participant is also enabled in using the Agent Portal Web for the features discussed in this course (Voice, Callback, Agent-2-Agent chat) and to work with the user and contact states of Atos Unify OpenScape Contact Center. The coexistence of Atos Unify OpenScape Contact Center and Atos Unify OpenScape UC is also discussed. Optionally, the add-on Atos Unify OpenScape Contact Center Analytics is also discussed.
