#### Course code OCCENAVSCS

Target GroupPartner technicians installing and maintaining OpenScape Contact Center, Unify Go<br/>technicians

Customer that maintain OpenScape Contact Center themselves

Course language	Delivery type	Duration
English	Classroom	5 days

## **Course description**

In this course we explain skills-based routing and configure it in practical exercises. Complex voice media routing scenarios with Custom Functions and Call Director components will be discussed and configured including routing scenarios with database components. Participants will also be enabled to work with multitenant systems and with different time zones and with Multiple Contact Handling. The media types e-mail, web interaction (including web collaboration, web callback and VXML and the Web Interaction REST SDK) and OpenMedia (including Facebook and Twitter connector)will be explained and configured in practical exercises. Handling of contacts of these media types with the Agent Portal Web application is also part of the training. Further more we discuss the following topics: Integration with Unify OpenScape FM, IT-security, auxiliary servers and interfaces.
