

Atos Unify Academy

Atos Unify OpenScope Solution Deployment Service (DLS) for Service

Course code SOLDLS1SCS

Target Group Service

Course language	Delivery type	Duration
English	Classroom	5 days

Course description

DLS is the central component with which devices, QoS parameters and the software distribution of IP devices are administered. Integrating DLS in a network makes it possible to take stock of and manage the IP device infrastructure. After participating in the course the service engineer will be able to carry out a DLS initial installation. The course covers the operation and general functions of the DLS by means of service examples and practical exercises. Any expansions with additional end-user devices (initial installation), as well as the relocation of telephones, will also be covered.

Learning Target

The service engineer learns the DLS initial installation, the operation and handling by means of service examples.

Prerequisites

Atos Unify OpenStage/ CP device Administration

- Atos Unify OpenScope Desktop Client, WL2
 - LAN / WAN-Basics
 - Windows 2008 or 2012 Server
-

Contents

Overview of the DLS (functions, components, interfaces and operation of the DLS in general)

Installation and product licensing

Account Management (roles and rights, policy features)

DLS handling in general (GUI handling, parameter deployment, IP device interaction, job coordination)

Software deployment

Working with templates and device profiles

DHCP settings for DLS address and VLAN ID

Auto configuration / Plug&Play (incl. Element Manager synchronisation and mass data import by CSV file)

IP Clients and DLS

Introduction to the connection DLS / Atos Unify Open Scape Voice CMP via API interface

Introduction to the connection DLS / Atos Unify OpenScape 4000 Manager via API Interface

Maintenance (Backup/Restore)

Curricula

This course is part of following curricula

- [Curriculum for Atos Unify OpenScape Deployment Service \(DLS\)](#)
 - [Curriculum for the Atos Unify OpenScape Enterprise](#)
 - [Implementation & Support Specialist Atos Unify OpenScape Enterprise](#)
-

Tests and Certificates

This course prepares following certification:

- [Implementation & Support Specialist Atos Unify OpenScape Enterprise](#)
-
