Atos Unify Academy

HiPath 3000 Installation and Maintenance Fundamentals

Course code SVU174C

Target Group   System designers, customer engineers, technical support analysts, and application specialists.

Course language	Delivery type	Duration
English	WBT	1.3 hr

Learning Target

Upon completion of this course, the student will be able to:

"Identify the different members of the HiPath 3000 family of systems.

"Identify the printed circuit boards for each of the systems.

"Recognize the different models of optiPoint 500, 410, 420 and OpenStage telephones used in the HiPath 3000 Family of systems.

Prerequisites

Passing an Industry Standard Basic Telephony Knowledge test.

Contents

This on-demand webinar course (with recorded voice) covers the HiPath 3000 Family of systems. Included are hardware overviews of the HiPath 3300/3350, HiPath 3500/3550 and the HiPath 3800 systems. An overview of all of the optiPoint 500 (TDM), 410 and 420 (HFA/IP) and OpenStage telephones, add-on adapters and plug in modules are also part of the course. The course run time is about 1.5 hours and may be stopped and restarted at any point. SVU174C is a prerequisite to SVU175C, which covers the Manager E database tool.

Curricula

This course is part of following curricula

•   _HiPath 3000 Administration
