Atos Unify Academy

HiPath Manager E Fundamentals

Course code SVU175C

Target Group   System designers, customer engineers, technical support analysts, application specialists, and customers.

Course language	Delivery type	Duration
English	WBT	1 hrs.

Learning Target

Upon completion of this course the student will have an understanding of how to load, configure and navigate within the HiPath 3000 Manager E software tool.

Prerequisites

Required Prerequisite:

- SVU174C - HiPath 3000 Installation and Maintenance Fundamentals

Contents

This on-demand webinar course (with recorded voice) covers the HiPath 3000 Manager E configuration tool. The run time for this webinar is approximately one hour. The purpose of this course is to provide the student with an introduction to the HiPath 3000 Manager E software tool and provide instruction on its use. This course is an integral part of the HiPath 3000 Installation and Maintenance curriculum and is not a standalone class.

Curricula

This course is part of following curricula

- HiPath 3000 Administration

Comments

The student must have HiPath Manager 3000 software for this course.

- Employees and partners can obtain the software by visiting the TAC Advisor web page.
- It can also be downloaded directly from the course downloads area of SVU175C
