

Atos Unify Academy

OpenScape Desk Phone CP Family - Sales Training

Course code ODPCPFMSDV

Course language	Delivery type	Duration
English	WBT	22 min.

Course description

The OpenScape CP Family of phones provides an exciting new way to work for the people who spend some or all of the day at their desk. From options that include Near Field Communications and Bluetooth, to Eddystone Beacon "Physical Web" communications, these phones are designed to be featured on the desktop, thanks to the collaboration of Unify and frog design Inc. Find out how these phones not only meet the basic needs of desktop users, but provide more efficiency in an intuitive, integrated and beautiful design. Not only that, OpenScape CP family of phones takes it to the next level of social integration with the ability to interact with Circuit. OpenScape CP phones enable applications you've never seen before in Unify desktop devices, including a new URL push that can let you see the conference room schedule, simply by passing by the conference room, or have the cafeteria menu automatically show up on your smartphone or tablet as you approach the entrance. Enroll now for this self paced WBT.

Learning Target

Upon completion of this class, the participant will be able to:

- List the members of the new OpenScape CP family of phones.
 - Describe the capabilities of each phone within the CP Family.
 - Explain the customer benefits associated with the CP phones and their enhanced capabilities.
 - Present case studies to demonstrate the applications of Eddystone Beacon, NFC and Bluetooth technologies in a way that benefits the customer.
 - Distinguish the CP phones from other phones with the built-in Circuit integration.
-

Prerequisites

Basic OpenScape knowledge

Basic Circuit knowledge

Contents

Market Trends
