Atos Unify Academy

Atos Unify OpenScape Nuggets - Connecting a C-SBC to Atos Unify OpenScape Enterprise Express V9 Via the THIG

Course code OEECSBCSDS

Target Group Partners and Service Technicians

Course language	Delivery type	Duration
English	WBT	16 min.

Course description

This short training module will cover the addition of a Central SBC to an OpenScape Enterprise Express V9R0 deployment via the CDC output. It will show you the various screens and implementation options for adding the C-SBC. It also touches on some basic troubleshooting options.

Learning Target

Upon completion of this class, the participant will be able to:

- Populate the basic Central SBC data in the CDC tool.
- Deploy the Central SBC in an OSEE solution.
- Verify the connection is working, and if not do some basic troubleshooting

Prerequisites

This training assumes you have previously taken training for CDC and OSEE staging. It also assumes you have a basic knowledge of the OSV and SBC products.

Contents

Install and configuration of the C-SBC (using files from CDC)

Verification of Configuration in the THIG

Verification of Configuration in the OSV

Troubleshooting basics
