OpenScape Circuit GTC configuration overview - Learning Nugget

Course code CIRGTCCNDS

Target Group Service

| Course language | Delivery type | Duration |
|-----------------|---------------|----------|
| English         | WBT           | 15 min.  |

## Course description

This E-Learning nugget presents an overview on how to use the on-premise SBC GTC part to connect it to the Circuit cloud. In a practical manner we go through the administration areas and perform a quick-check. The goal is to identify the administration steps and sections to get the GTC connected to the cloud.

## Learning Target

The participant knows

- the updated SBC assistant sections in terms of GTC.
- how to identify the certificate to be used.
- how to perform troubleshooting.

## Prerequisites

Adequate OpenScape SBC knowledge

Adequate OpenScape Voice knowledge

## Contents

OSV Endpoint/Client configuration in terms of SBC Endpoint

SBC GTC configuration steps

Certificate area and dependency in terms of GTC

functional test and basic troubleshooting
