

Atos Unify Academy

OpenScape Concierge V4 R1 - Update Training for Service

Course code OCEV4R1UDS

Target Group Consultants, Partner technicians, GO personal, System integrators.

Course language	Delivery type	Duration
English	WBT	15 min.

Course description

With version V4 R2, the Concierge software will be adapted to the new software versions of the accompanying products with regard to the support of MS-SQL-Server 2019 and OpenScape Contact Center V11. The MS Teams integration and the Concierge Internet Browser replacement improves Concierge user productivity. The support of the VMWare Storage API as well as the new Concierge Tools section in the SWS make work easier for the technicians in charge. System Management and Data Center adjustments as well as the new Time-Zone handling in Concierge Reports and encrypted access to Emails complete the scope of the release.

Learning Target

The participant

- Gets detailed knowledge about new features of Concierge V4 R2.
- Is able to update a Concierge Installation to Concierge version V4 R2.
- Is able to install the required software packages at the customer site and knows the new features and how to handle and configure those.
