Mitel SIP-DECT Primer (Self Study)

Course code TSIPDECTPR

Target Group Technicians (m/w/d)
Systems engineer (m/w/d)

Course language	Delivery type	Duration
English	WBT	1 hrs.

Course description

This course teaches the basics of the Mitel SIP-DECT system, which primarily covers the hardware and functions of the SIP DECT system.
 It is a prerequisite for participation in the SIP DECT Basic course, which is offered as self-study, face-to-face and remote.

 Important information:
 Mitel only provides a self-study guide for this self-study, which you will receive via email as a download link after booking.
 After self-study, please also book and start the corresponding final test TSIPDECTTS.
 Course Link: TSIPDECTTS
